*1. Manufacturing plants with product development functions are called “mother plants,” and are core of our global production. Mother plants devise cost reductions when a new model is developed or at the time of model changes, as well as lead initiatives to strengthen Komatsu overall manufacturing capabilities, including at other plants that produce same models, components or parts.

*2. Excluding Japan and China.

*3. The decrease in the number of manufacturing locations is due to a review of the counting criteria.

Number of locations by region

Industrial machinery and others

As of March 31, 2023

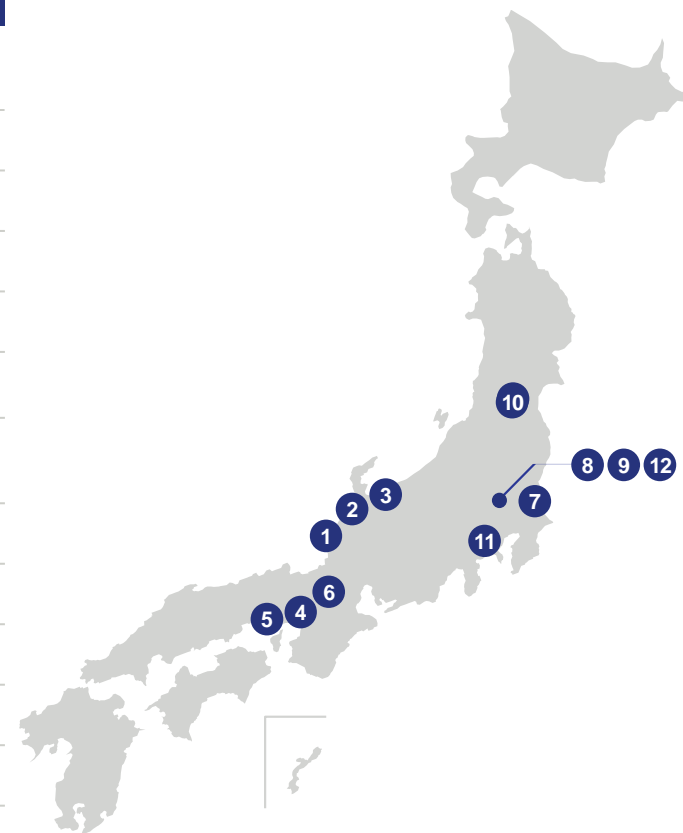

| | Category | Japan | North America | Latin America | Europe | CIS | China / Asia (*1) | Oceania | Middle East | Africa | Total |

| | Total | 11 | 7 | 2 | 2 | - | 21 | - | - | - | 43 |

*1. Excluding Japan.

The descriptions of our locations are listed below.

| | |
|-------------------------|--|
| Manufacturing locations | We have manufacturing plants for machinery in global locations where demand is high. Key components are developed and manufactured in Japan and supplied to manufacturing bases around the world so that we may offer customers the same high-quality and high-performance products globally. We also conduct global cross sourcing to address fluctuations in exchange rates and demand. |
| Sales locations | Our global sales locations support our distributors offer products and services to our customers around the world. Our sales and service distributors are highly-renowned entities in their region. We offer direct marketing and support through some of owned distributors in certain mining countries and parts of Europe, America and Asia. |
| Parts center | We have parts centers around the world to facilitate delivery of parts and components wherever our customers are located. All parts centers are connected to a parts management system that operates 24/7. This enables us to forecast demand and destination so that we may swiftly supply parts needed for repairs and exchanges. |
| Training center | Our training centers provide trainings for our customers to operate Komatsu products in a safe and efficient manner. They also train employees of our sales and service distributors as well as of the Komatsu group. The centers systematically train service engineers who are active globally and support customers and distributors. |
| Reman center | We promote the “Reman (remanufacturing) business” at our Reman plants/centers worldwide. “Reman business” involves remanufacturing the used engines, transmissions, and other components removed from construction and mining machinery that have been in operation at customer sites for a long period. We engage in various processes involving the collection, disassembly, cleaning, salvage, reassembly, and reuse of parts. We subsequently conduct performance tests, paint, and conduct shipping inspections before supplying the parts back to the market as newly manufactured components. |

| Country | No. | Company | Location | Main products |
|---------|-----|----------------------------------|--|--|
| Japan | 1 | Awazu Plant, Komatsu Ltd. | Ishikawa | Small and medium-sized hydraulic excavators, small and medium-sized wheel loaders, small and medium-sized bulldozers, motor graders, transmission, axles |
| | 2 | Kanazawa Plant, Komatsu Ltd. | Ishikawa | Super-large hydraulic excavator, press machine |
| | 3 | Himi Plant, Komatsu Ltd. | Toyama | Steel castings, iron castings, patterns for casting |
| | 4 | Osaka Plant, Komatsu Ltd. | Osaka | Middle- or large-sized hydraulic excavators, large-sized bulldozers, environment recycling machines, final drive |
| | 5 | Rokko Plant, Komatsu Ltd. | Hyogo | Super-large hydraulic excavators, super-large bulldozers |
| | 6 | Shiga Plant, Komatsu Ltd. | Shiga | Manufacture of cab and engine after treatment equipment for construction equipment |
| | 7 | Ibaraki Plant, Komatsu Ltd. | Ibaraki | Dump trucks, articulated dump trucks, large-sized wheel loaders, large-sized wheel dozers, large-sized motor graders |
| | 8 | Oyama Plant, Komatsu Ltd. | Tochigi | Diesel engines, hydraulic equipment, axles, hybrid components |
| | 9 | Tochigi Plant, Komatsu Ltd. | Tochigi | Forklift trucks, mini excavators, mini wheel loaders |
| | 10 | Koriyama Plant, Komatsu Ltd. | Fukushima | Hydraulic equipment |
| | 11 | Shonan Plant, Komatsu Ltd. | Kanagawa | Controllers, monitors, Komtrax terminals ,information and communications technology components |
| | 12 | Komatsu Cummins Engine Co., Ltd. | Tochigi (Located at Oyama Plant of Komatsu Ltd.) | Small diesel engines |

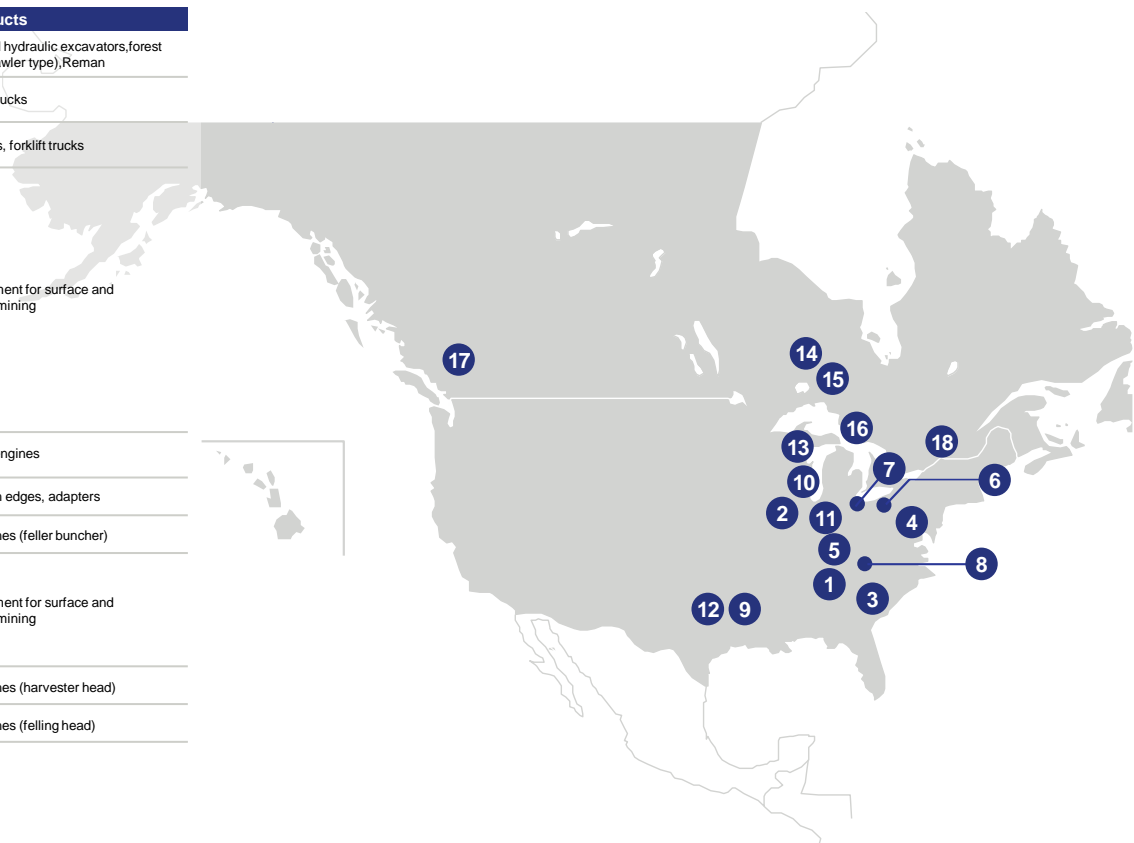

Construction, mining and utility equipment business manufacturing locations

North Americas
