Consolidated Business Results for the Fiscal Year Ended March 31, 2013 (U.S. GAAP)
1. Results for the Fiscal Year Ended March 31, 2013

(Amounts are rounded to the nearest million yen)

(1) Consolidated Financial Highlights

(For the fiscal years ended March 31, 2013 and 2012)

Millions of yen & US dollars except per share amounts

| | 2013 | | 2012 | Changes | |
|---|------------------|---------------|-----------|----------|-----------|
| | [A] | | [B] | [A-B] | [(A-B)/B] |
| | Yen | Dollar | Yen | Yen | % |
| Net sales | 1,884,991 | 20,053 | 1,981,763 | (96,772) | (4.9)% |
| Operating income | 211,602 | 2,251 | 256,343 | (44,741) | (17.5)% |
| Income before income taxes and equity in earnings of affiliated companies | 204,603 | 2,177 | 249,609 | (45,006) | (18.0)% |
| Net income attributable to Komatsu Ltd. | 126,321 | 1,344 | 167,041 | (40,720) | (24.4)% |
| Net income attributable to Komatsu Ltd. per share (Yen & US dollars) | | | | | |
| Basic | ¥132.64 | \$1.41 | ¥173.47 | ¥(40.83) | |
| Diluted | ¥132.51 | \$1.41 | ¥173.32 | ¥(40.81) | |
| Return on equity | 11.5% | | 17.3% | (5.8)% | |
| Return on total assets | 8.5% | | 11.2% | (2.7)% | |
| Return on sales | 11.2% | | 12.9% | (1.7)% | |

Notes: 1) The translation of Japanese yen amounts into US dollar amounts hereinafter is included solely for convenience and has been made for the fiscal year ended March 31, 2013 at the rate of ¥94 to US\$1, the approximate rate of exchange at March 31, 2013.

2) Comprehensive income:

2013: 243,015 millions of yen, up 47.2% from 2012

2012: 165,072 millions of yen, up 37.4% from 2011

3) Equity in earnings of affiliated companies:

2013: 1,621 millions of yen

2012: 1,609 millions of yen

4) Return on equity is calculated by using net income attributable to Komatsu Ltd. and total Komatsu Ltd. shareholders' equity.

5) Return on total assets is calculated by using income before income taxes and equity in earnings of affiliated companies.

6) Return on sales is calculated by using operating income.

(2) Consolidated Financial Position

(As of March 31, 2013 and 2012)

Millions of yen except per share amounts

| | 2013 | 2012 |
|---|------------|------------|
| Total assets | 2,517,857 | 2,320,529 |
| Total equity | 1,252,695 | 1,057,457 |
| Komatsu Ltd. shareholders' equity | 1,193,194 | 1,009,696 |
| Komatsu Ltd. shareholders' equity ratio | 47.4% | 43.5% |
| Komatsu Ltd. shareholders' equity per share (Yen) | ¥ 1,252.33 | ¥ 1,060.31 |

(3) Consolidated Cash Flows

(For the fiscal years ended March 31, 2013 and 2012)

Millions of yen

| | 2013 | 2012 |
|---|-----------|-----------|
| Net cash provided by (used in) operating activities | 214,045 | 105,608 |
| Net cash provided by (used in) investing activities | (131,397) | (124,539) |
| Net cash provided by (used in) financing activities | (71,814) | 18,781 |
| Cash and cash equivalents, end of year | 93,620 | 83,079 |

2. Dividends

(For the fiscal years ended March 31, 2013 and 2012, and ending March 31, 2014)

| | 2013 | 2012 | 2014 Projections |
|--|--------|--------|---------------------|
| Cash dividends per share (Yen) | | | |
| Interim | 24.00 | 21.00 | 29.00 |
| Year-end | 24.00 | 21.00 | 29.00 |
| Total | 48.00 | 42.00 | 58.00 |
| Annual dividends (Millions of yen) | 45,749 | 40,341 | -- |
| Payout ratio (Consolidated basis) (%) | 36.2% | 24.2% | 30.0% |
| Dividends as percentage of equity (Consolidated basis) (%) | 4.2% | 4.2% | -- |

3. Projections for the Fiscal Year Ending March 31, 2014

(From April 1, 2013 to March 31, 2014)

Millions of yen except per share amounts

| | The full fiscal year | |
|--|----------------------|--------------------------------|
| | | Changes Increase (Decrease) |
| Net sales | 2,050,000 | 8.8% |
| Operating income | 305,000 | 44.1% |
| Income before income taxes and equity in earnings of affiliated companies | 297,000 | 45.2% |
| Net income attributable to Komatsu Ltd. | 184,000 | 45.7% |
| Net income attributable to Komatsu Ltd. per share (basic) (Yen) | ¥193.12 | |

Notes: 1) Percentages shown above represent the rates of change compared with the corresponding periods a year ago.

2) Refer to “Management Performance and Financial Conditions” for preconditions of the projections above and other related issues.

4. Others

(1) Changes in important subsidiaries during the Year under Review: None

(2) Changes in accounting standards, procedures and presentations

1) Changes resulting from revisions in accounting standards, etc.: Applicable

2) Change in other matters except for 1) above: None

Note: See “Basis of Consolidated Financial Statements” on page 24 for more details.

(3) Number of common shares outstanding

1) The numbers of common shares issued (including treasury stock) as of March 31 were as follows:

2013: 983,130,260 shares

2012: 983,130,260 shares

2) The numbers of shares of treasury as of March 31 were as follows:

2013: 30,351,401 shares

2012: 30,869,238 shares

3) The weighted average numbers of common shares outstanding were as follows:

2013: 952,376,139 shares

2012: 962,919,074 shares

Note: See “Net Income per Share” on page 26 for the number of common shares, which was used as the basis for calculating the amount of net income attributable to Komatsu Ltd. per share.

Management Performance and Financial Conditions

(1) Outline of Operations and Business Results

For the fiscal year under review (April 1, 2012 – March 31, 2013), consolidated sales of construction, mining and utility equipment sales declined from the previous fiscal year, reflecting a drastic decline in demand for construction equipment in China and a sharp drop in demand for mining equipment mainly in Indonesia, as adversely affected by the falling price of coal. In the industrial machinery and others business, while sales of large presses to the automobile manufacturing industry, as well as machine tools for use in automotive engine production, increased from the previous fiscal year, those of wire saws for use in slicing silicon ingots for the solar cell market sharply fell. As a result, consolidated sales in this business segment declined from the previous fiscal year.

For the fiscal year under review, consolidated sales decreased by 4.9% from the previous fiscal year to, JPY1,884.9 billion (USD20,053 million at USD1=JPY94). With respect to profits, Komatsu focused continuous efforts to increase selling prices and reduce production costs. Affected by a big drop in sales volume from the previous fiscal year, profits declined in both businesses of construction, mining and utility equipment as well as industrial machinery and others. Operating income declined by 17.5% to JPY211.6 billion (USD2,251 million). Operating income ratio decreased by 1.7 percentage points to 11.2%, and income before income taxes and equity in earnings of affiliated companies declined by 18.0% to JPY204.6 billion (USD2,177 million). Net income attributable to Komatsu Ltd. amounted to JPY126.3 billion (USD1,344 million), a decline of 24.4% from the previous fiscal year.

[Consolidated Financial Highlights]

Note: Sales and profit figures in this report show the respective sums of twelve months from April 1 to March 31. Unless otherwise noted, all sales by segment in this report indicate the amounts before elimination of inter-segment transactions.

[Markets as Positioned by the Komatsu]

| | |
|---------------------|--|
| Traditional Markets | Japan, North America and Europe |
| Strategic Markets | China, Latin America, Asia, Oceania, Africa, Middle East and CIS |

Business results by operation are described below.

Construction, Mining and Utility Equipment

With respect to construction equipment, while demand increased in North America and Japan from the previous fiscal year, Chinese demand for hydraulic excavators dropped considerably. As a result, global demand remained sluggish. On the mining equipment market, while demand for equipment declined, centering on Indonesia, as adversely affected by the falling price of coal, demand increased steadily for equipment especially in Latin America and Oceania as well as parts and service from the previous year. With this background, consolidated sales of construction, mining and utility equipment decreased by 3.7% from the previous fiscal year, to JPY1,679.5 billion (USD17,868 million). Segment profit declined by 15.2% to JPY208.9 billion (USD2,223 million).

To further enhance profitability and reinforce its corporate strength, Komatsu continued efforts to increase selling prices, reduce production costs and improve operations designed to flexibly respond to changes in foreign exchange rates and market demand. Komatsu also worked to reinforce its aftermarket business by improving its strategic parts operation which includes buckets and teeth, the demand for which is strong, especially in Strategic Markets and the mining industry, as well as its Reman and rebuild operations. With respect to production operation, Komatsu embarked on full-scale efforts to cut down electric power consumption at all plants in Japan during the fiscal year under review.

With respect to product development, Komatsu continued its efforts on products which feature advantages in the areas of environmental friendliness and fuel economy. Following North America and Europe, Komatsu launched new emission standards-compliant models in Japan in July last year. Combined with these models, Komatsu began offering the KOMATSU CARE, a new service program designed to reduce the total lifecycle costs of these models and prolong machine life. Komatsu also continued to expand sales of HB205 and HB215LC hybrid hydraulic excavators worldwide, and topped cumulative sales of 2,000 units in March this year. In the forklift truck business, Komatsu launched sales of FH Series hydrostatic-driven forklift trucks in Japan, which feature Komatsu’s technological expertise in hydraulic control accumulated and refined for construction equipment over the years. With steady orders received since then, Komatsu embarked on overseas sales in February 2013.

| | 2013 | 2012 | Changes | |
|----------------------|------------------|-----------|-----------|-----------|
| | [A] | [B] | [A-B] | [(A-B)/B] |
| Japan | 292,732 | 286,342 | 6,390 | 2.2 % |
| North America | 276,475 | 237,819 | 38,656 | 16.3 % |
| Latin America | 259,275 | 205,225 | 54,050 | 26.3 % |

| Total | 1,677,049 | 1,739,348 | (62,299) | (3.6)% |

* Excluding Japan and China

Komatsu's operations by region are described below.

Japan

As the volume of used equipment in surplus exported from Japan, which had outnumbered demand for new equipment since around 2000, has bottomed out, demand has grown for construction equipment for use in restoration and reconstruction, centering on rental companies, since the Great East Japan Earthquake. As a result, demand steadily increased and sales increased from the previous fiscal year.

Concerning new emission standards-compliant models, we have launched 30 models in total since July 2012 and worked to expand sales in Japan. In solid collaboration with its distributors, Komatsu has also continued to increase the retail prices of all major models from the previous fiscal year.

Americas

In North America, demand grew from the previous fiscal year, supported by increased demand in the housing sector as well as strong demand in the rental and energy development industries. With respect to new emission standards-compliant models, Komatsu has aggressively been introducing them by combining them with the KOMATSU CARE program. As a result, they have moved up to the top 70% of total sales of new Komatsu equipment on a unit basis. In response to strong demand for rental equipment, Komatsu worked to reinforce distributors' rental equipment business.

In Latin America, demand for mining equipment remained strong, centering on copper mines in Chile and Peru, while demand for construction equipment was sluggish in Brazil, the largest market of the region. As a result, overall demand for equipment was firm, and sales in the Americas advanced from the previous fiscal year.

Europe & CIS

As economic uncertainty prevailed against the backdrop of sovereign-debt problems, demand remained sluggish, even in the major markets of Germany, France and the United Kingdom. As a result, sales in Europe decreased from the previous fiscal year. While steadily advancing the market introduction of new emission standards-compliant models, Komatsu concerted efforts to prepare for the launching of intelligent Machine Control construction equipment, designed to automate construction, in Europe in the current fiscal year ending March 31, 2014.

In CIS, demand remained firm, especially in gold mines, and sales increased from the previous fiscal year. Komatsu has reached agreements with Pacific National University and Far Eastern Federal University to collaborate in human resource development for construction, mining and road construction equipment. In October 2012, Pacific National University began the first course.

China

Although the government introduced credit-easing measures, there were still no clear signs for new infrastructure development start-ups in the fiscal year under review. Demand for hydraulic excavators plunged considerably from the previous fiscal year, and sales plunged drastically.

In response to this sharp decline in demand, Komatsu focused its efforts on assessing retail market conditions right away and maintaining an appropriate level of inventories, mainly by maximizing the use of the KOMTRAX (Komatsu Machine Tracking System). As there are some signs of demand bottoming out at last, Komatsu has recovered post-Chinese New Year sales of hydraulic excavators to the level of the previous year on a unit basis, partly reflecting the market introduction of new 20-ton class hydraulic excavators, designed particularly for a fuel economy.

Asia & Oceania

In Asia, while demand advanced for use in the reconstruction of areas damaged by the flood last year in Thailand, demand plummeted drastically for large, medium-sized small equipment for use in mines in Indonesia, the largest market of Southeast Asia, particularly affected by the falling price of thermal coal. As a result, sales dropped sharply from the previous fiscal year.

In Oceania, demand for mining equipment for use in iron ore mines, as well as for construction equipment, remained steady, and sales increased from the previous fiscal year. Concerning the large-scale project to deliver driverless dump trucks to iron ore mines in Australia, under a Memorandum of Understanding signed by Rio Tinto and Komatsu in November 2011, Komatsu and Rio Tinto have continued to make steady and sound progress for success as a solid team.

Middle East & Africa

In the Middle East, sales declined from the previous fiscal year, particularly affected by sluggish demand in Turkey, the major market of the region. In October last year, Komatsu opened a new distribution base in Dubai and worked to reduce inventories of distributors and shorten delivery time. In Saudi Arabia with promising growth in demand, Komatsu signed a new distribution contact with a leading local company in December last year.

In Africa, sales increased from the previous fiscal year, supported by firm demand for equipment for use in gold mines in particular. Komatsu also continued to strengthen its sales and product support operations by implementing measures, including the opening of new parts depots, jointly with distributors in southern Africa, in order to improve its spare delivery parts operation. As part of its brand management activities,

Komatsu made efforts jointly with a mining customer in South Africa to reduce the fuel consumption of machines owned by the customer by analyzing KOMTRAX information.

Industrial Machinery and Others

While sales of large presses to the automobile manufacturing industry, as well as machine tools for use in automotive engine production, increased from the previous fiscal year, sales of wire saws dropped sharply from the previous fiscal year. Additionally, extraordinary demand for temporary housing units came to an end. As a result, sales of the industrial machinery and others business declined by 13.9% from the previous fiscal year, to JPY216.2 billion (USD2,301 million). Segment profit decreased by 62.9% to JPY6.2 billion (USD66 million).

Komatsu concerted its efforts to develop new products with improved productivity, safety and environmental friendliness. In March this year, Komatsu embarked on sales of the H1F-2 AC Servo press and the PVS8525 Servo press brake, which followed the NTG-4SP grinding machine launched in November last year. With respect to the laser-cutting machine business, Komatsu carried out organizational restructuring in April 1, 2013 by consolidating development, sales and service functions of Komatsu NTC Ltd. at Komatsu Industries Corp. in order to effectively use overlapping corporate resources.

[Projections for the Fiscal Year Ending March 31, 2014]

(From April 1, 2013 to March 31, 2014)

In the construction, mining and utility equipment business, Komatsu projects that both sales and profits will increase from the current fiscal year for the following reasons: Chinese demand bottomed out; demand should continue to increase steadily in Japan and North America; its concerted efforts to increase selling prices and expand sales of strategic parts; and effects of the Japanese yen's appreciation. In the industrial machinery and others business, while sales of presses and machine tools should increase firmly, Komatsu estimates that both sales and profits will decline slightly from the current fiscal year, as particularly affected by sluggish demand for wire saws.

In April this year, we, at the Komatsu Group, embarked on the new mid-range management plan, "Together We Innovate GEMBA Worldwide". Under this plan, we will aggressively promote the focused activities which are defined in Growth Strategies to capitalize on our advantages, and Structural Reforms to strengthen our corporate fundamentals, as the wheels of a vehicle. We anticipate that both consolidated sales and profits should increase from the current fiscal year as follows.

As preconditions for our projection, we are assuming the foreign exchange rates as follows: USD1=JPY95, EUR1=JPY123 and RMB1=JPY15.3.

The Company and a part of its consolidated subsidiaries adopt the declining balance method for the depreciation of property, plant and equipment, and plan to change it to the straight-line method from the fiscal year ending March 31, 2014. Komatsu believes that the straight-line method should better reflect the future usage of the property plant and equipment. The effect of the change in depreciation is recognized prospectively as a change in accounting estimate. This effect is estimated to result in a decrease of depreciation expense by approximately JPY10 billion for the fiscal year ending March 31, 2014.

Millions of yen

| | 2014 Projection (A) | 2013 Results (B) | Changes Increase (A)-(B)/(B) |
|--|------------------------------------|------------------------|------------------------------------|
| Net sales | 2,050,000 | 1,884,991 | 8.8% |
| Operating income | 305,000 | 211,602 | 44.1% |
| Income before income taxes and equity in earnings of affiliated companies | 297,000 | 204,603 | 45.2% |
| Net income attributable to Komatsu Ltd. | 184,000 | 126,321 | 45.7% |

(2) Financial Conditions

As of March 31, 2013, total assets increased by JPY197.3 billion from the previous fiscal year-end, to JPY2,517.8 billion (USD26,786 million), mainly due to the Japanese yen's depreciation compared to the previous fiscal year-end. Interest-bearing debt increased by JPY31.9 billion from the previous fiscal-year end, to JPY679.7 billion (USD7,232 million). Komatsu Ltd. shareholders' equity increased by JPY183.4 billion from the previous fiscal year-end, to JPY1,193.1 billion (USD12,694 million). As a result, Komatsu shareholders' equity ratio increased by 3.9 percentage points from the previous fiscal year-end, to 47.4%. Net debt-to-equity ratio* improved to 0.49 from 0.56 at the previous fiscal year.

* Net debt-to-equity ratio = (Interest-bearing debt – Cash and cash equivalents – Time deposits) / Komatsu Ltd. shareholders' equity

For the fiscal year under review, net cash provided by operating activities totaled JPY214.0 billion (USD2,277 million), an increase of JPY108.4 billion from JPY105.6 billion for the previous fiscal year, mainly reflecting decreased inventories. Net cash used in investing activities amounted to JPY131.3 billion (USD1,398 million), compared to JPY124.5 billion used in investing activities for the previous fiscal year. This increase is mainly due to the purchase of fixed assets as well as shares of subsidiaries. Net cash used in financing activities totaled JPY71.8 billion (USD764 million), mainly due to the payment of cash dividends and repayment of debt. For the previous fiscal year, net cash of JPY18.7 billion was provided by financing activities. After adding the effects of foreign exchange fluctuations, cash and cash equivalents, as of March 31, 2013, totaled JPY93.6 billion (USD996 million), an increase of JPY10.5 billion from the previous fiscal year-end.

Cash flow indexes are described below.

[Trends of Financial Conditions Indicators]

(Fiscal years ended March 31, 2013, 2012 and 2011)

* Years of debt redemption: Interest-bearing debt/Net cash provided by operating activities

(3) Basic Policy for Redistribution of Profits and Dividends for the Fiscal Year under Review and Next Fiscal Year

Komatsu is building a sound financial position as well as flexible and agile corporate strengths to increase its corporate value. Concerning cash dividends to shareholders, the Company maintains the policy of redistributing profits by considering consolidated business results and continuing stable dividends. Specifically, the Company has set the goal of a consolidated payout ratio of 20% or higher. Further, it maintains the policy of not decreasing dividends, as long as the consolidated payout ratio does not surpass 40%.

After reviewing the business results for the fiscal year under review as well as current and future business prospects, the Company is planning to set the fiscal year-end dividend at JPY24 per share. (The Company plans to propose this amount to the 144th ordinary general meeting of shareholders scheduled for June 19, 2013.) Annual cash dividends for the year under review, including the interim dividend of JPY24 per share, amount to JPY48 per share (an increase of JPY6 from annual cash dividends for the previous fiscal year). This amount translates into a consolidated payout ratio of 36.2%.

Regarding annual cash dividends for the fiscal year ending March 31, 2014, the Company plans to set the annual cash dividends per share at JPY58, an increase of JPY10 from the fiscal year ended March 31, 2013. The Company has revised the policy, based on the new mid-range management plan, "Together We Innovate GEMBA Worldwide", launched in April this year. Specifically, the revised policy calls for a consolidated payout ratio of 30% or higher and not decreasing dividends, as long as the consolidated payout ratio does not surpass 50%.

Cautionary Statement

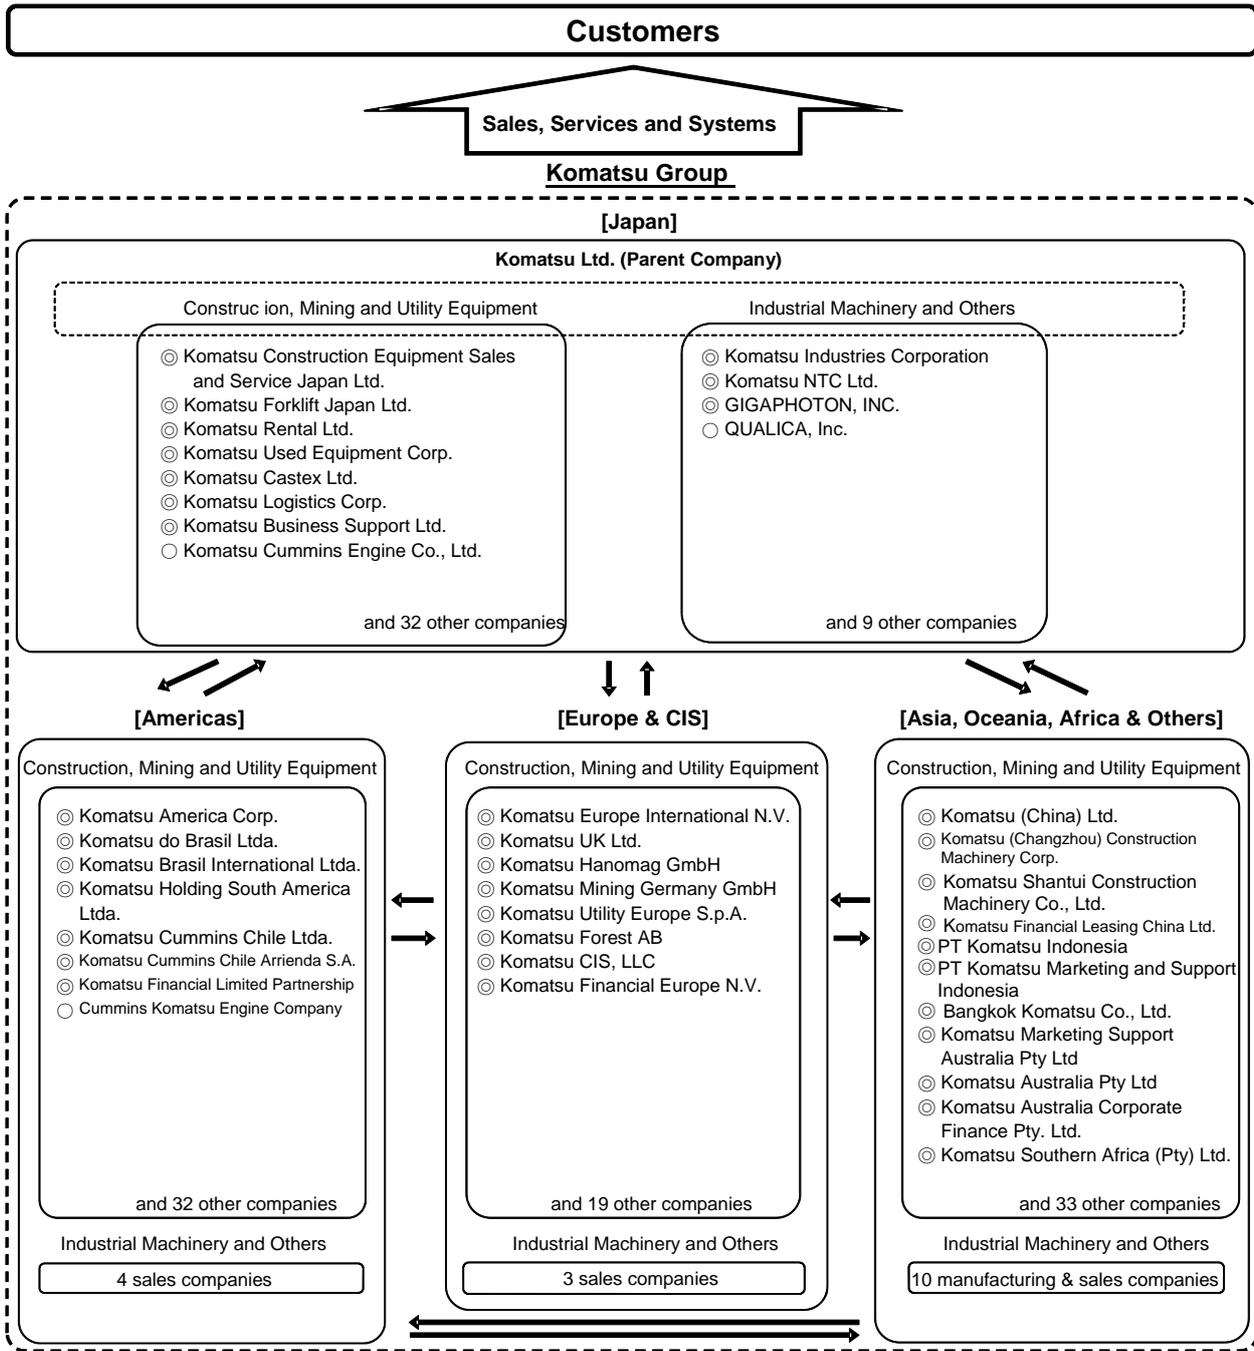

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as "will," "believes," "should," "projects" and similar terms and expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu's principal products, owing to changes in the economic conditions in Komatsu's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving Komatsu's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

| Business Categories and Principal Products & Services | |
|--|--|
| Construction, Mining and Utility Equipment | |
| Excavating Equipment | Hydraulic excavators, mini excavators and backhoe loaders |
| Loading Equipment | Wheel loaders, mini wheel loaders and skid steer loaders |
| Grading and Roadbed Preparation Equipment | Bulldozers, motor graders and vibratory rollers |
| Hauling Equipment | Off-highway dump trucks, articulated dump trucks and crawler carriers |
| Forestry Equipment | Harvesters, forwarders and feller-bunchers |
| Tunneling Machines | Shield machines, tunnel-boring machines and small-diameter pipe jacking machines |
| Recycling Equipment | Mobile debris crushers, mobile soil recyclers and mobile tub grinders |
| Industrial Vehicles | Forklift trucks |
| Other Equipment | Railroad maintenance equipment |
| Engines and Components | Diesel engines, diesel generator sets and hydraulic equipment |
| Casting Products | Steel castings and iron castings |
| Logistics | Packing, warehousing and transport |
| Industrial Machinery and Others | |
| Metal Forging and Stamping Presses | Large presses, servo presses, small and medium-sized presses and forging presses |
| Sheet-Metal Machines | Laser cutting machines, fine-plasma cutting machines, press brakes and shears |
| Machine Tools | Transfer machines, machining centers, crankshaft millers, grinding machines and wire saws |
| Defense Systems | Ammunition and armored personnel carriers |
| Temperature-control equipment | Thermoelectric modules and temperature-control equipment for semiconductor manufacturing |
| Others | Commercial-use prefabricated structures and excimer laser for lithography tools in semiconductor manufacturing |

Management Policy

(1) Basic Management Policy

The cornerstone of Komatsu's management is commitment to Quality and Reliability for maximization of its corporate value. This commitment is not limited to delivering safe and innovative products and services which incorporate the viewpoints of customers. Komatsu is continuing its efforts to enhance the Quality and Reliability of all organizations, businesses, employees and management of the entire Komatsu Group. It is the top management task of Komatsu to continue improving the Quality and Reliability of all these, year after year.

(2) Mid to Long-Range Management Plan and Issues Ahead

The Komatsu Group has worked to improve the added values of its products, further strengthen its operation in growth markets and enhance its continuous group-wide Kaizen (improvement) capability in particular under the "Global Teamwork for Tomorrow" mid-range management plan designed for a three-year period from April 1, 2010 to March 31, 2013. In this period, Komatsu Group's business environment changed dramatically, as represented by a sharp hike of the Japanese yen against other major currencies, the Great East Japan Earthquake, dramatic changes in demand for wire saws, as well as construction and mining equipment in China and Indonesia. Under such an environment, the Komatsu Group worked to maintain high profitability regardless of market conditions by improving selling prices and production costs and strengthening its corporate fundamentals to flexibly meet dynamic changes in foreign exchange rates and market demand.

Demand for construction and mining equipment plunged drastically under economic slowdowns worldwide as triggered by the financial crisis in the United States in September 2008, and then recovered, driven by Chinese and Indonesian demand. Today, we need to expect that demand will remain at a standstill for the time being, mainly against the backdrop of demand in these two countries entering an adjustment phase. However, we project that demand will steadily increase in the mid to long-range perspective, supported by global population growth and increasing rates of urbanization worldwide. To continue to focus on its core businesses of construction and mining equipment, as well as industrial machinery, invest in growth, and strengthen its corporate fundamentals, the Komatsu Group started the "Together We Innovate GEMBA Worldwide" three-year mid-range management plan in April this year.

Under the current mid-range management plan, we are going to work on the following focused activities based on the two paired wheels of the Growth Strategy designed to capitalize on our strengths and the Structural Reforms designed to strengthen our corporate fundamentals. At the same time, we are also making all-out efforts to improve the level of profit redistribution to our shareholders.

To effectively tackle the high hurdles of focused activities, it is indispensable that the teamwork of Komatsu Group's employees with GEMBA (workplace) capabilities engage in continuous improvement activities by identifying workplace tasks and solving them. All Komatsu Group employees worldwide will continue to promote continuous improvement activities based on The KOMATSU Way. In particular, we will further strengthen brand management activities through which we strive to thoroughly understand customers' workplaces and become indispensable for them. In this way, we will develop human resources that are needed for business expansion on a global scale.

Target figures of the “Together We Innovate GEMBA Worldwide” mid-range management plan

| Items | Targets for Fiscal Year Ending March 31, 2016 |
|---------------------------|---|
| Operating income ratio | 18% – 20% |
| ROE: Return on Equity | 18% – 20% |
| Net debt-to-equity ratio | 0.3 or below |
| Consolidated payout ratio | 30% – 50% (stably) |

*ROE=Net income attributable to Komatsu Ltd. for the year/[(Komatsu Ltd. shareholders’ equity at the beginning + Komatsu Ltd. shareholders’ equity at the end of the fiscal year)/2]

* Net debt-to-equity ratio = (Interest-bearing debt – Cash and cash equivalents – Time deposits) / Komatsu Ltd. shareholders’ equity

[Premises]

| Items | Fiscal Year Ending March 31, 2016 | | |
|------------------------------|-----------------------------------|--------------|----------------|
| Guideline on sales | JPY2,300 billion ± JPY200 billion | | |
| Guidelines on exchange rates | USD1 | EUR1 | RMB1 |
| | JPY90 – 95 | JPY120 – 125 | JPY15.0 – 15.3 |

Focused activities of the “Together We Innovate GEMBA Worldwide” mid-range management plan

1. Growth strategies based on innovation

We will continue to refine our strengths, such as accumulated ICT (Information and Communication Technology) expertise, development and production technologies for key components, global sales and service networks, and flexible procurement and production operations. We will also proactively collaborate on a global scope with companies having cutting-edge technologies in promising fields, regardless of the Komatsu Group, in order to develop technologies which enable us to evolve DANTOTSU products, DANTOTSU service and DANTOTSU solutions. In this manner, we will innovate customers’ GEMBA jointly with them to speedily create new values in both domains of construction and mining equipment and industrial machinery.

We will expand investment in the development of next-generation products and develop and launch construction equipment of the future, which will enable further automation and unmanned operation by means of leading-edge ICT utilization. Specifically, we will continue to upgrade the Autonomous Haulage System (AHS) for driverless dump trucks in operation at large-scale mines in Chile and Australia, the fleet management system for forest machinery which is being introduced in Brazil, and intelligent Machine Control construction equipment designed to streamline construction and facilitate management of the entire construction process. We will also increase the number of successful follow-up models. In FY2013, as the leading models of our intelligent Machine Control construction equipment, we are going to launch medium-sized D61EXi/PXi bulldozers and medium-sized PC210LCi hydraulic excavators initially in the United States and Europe, respectively.

In the industrial machinery business, we are going to facilitate in-house development and production of key components in order to launch innovative products. In FY2013, we will be introducing a new fiber laser cutting machine which features high productivity and impressive reduction in running costs.

2. Growth strategies of existing businesses

Starting in 2014, new emission control standards (e.g., Tier4 Final in the United States) will be introduced in the United States, Europe and Japan, which require further reduction of NOx (nitrogen oxides) and PM (particulate matter) emissions. We will integrate our in-house development and production strengths for

engines, hydraulic units, control systems and so forth with leading-edge technologies, as we continue to develop new products designed to meet the new standards in FY2013, while working for a smooth market introduction. To expand earnings, we will strive to advance sales of strategic parts, such as buckets, teeth and track shoes in Strategic Markets with growth potential into the future as well as for mining equipment. We will also continue to reform our ordering system and logistics for spare parts. In FY2013, we are going to embark on worldwide sales of the Xcentric™ Ripper, an innovative attachment for hydraulic excavators for use in breaking rocks and demolition, initially in the United States and China.

With respect to existing businesses with potential demand, which we have failed to capture, we will step up our involvement even by considering strategic alliances as one of our choices.

We will make a variety of information “visible” by continuing to advance the functions and utilization methods of the KOMTRAX which is in operation in over 300,000 units around the world as of March 31, 2013, coupled with the KOMTRAX Plus and the KOMTRAX Parts which we are introducing in FY2013. KOMTRAX Parts will enable us to learn about the conditions of parts and their replacement record. Additionally, we will work to enhance customer satisfaction by engaging in speedy parts delivery and service based on maximum utilization of the evolving KOMTRAX and by expanding the rental and used equipment, retail finance and other businesses in the value chain.

3. Structural reforms designed to reinforce the business foundation

While we have about doubled sales of the Komatsu Group for the last 10 years, we have controlled fixed costs at about constant level. By separating costs from growth as our policy, we will continue to maintain an appropriate level of fixed costs. With respect to production, we are working to cut down electric power consumption to half at Japanese plants by reforming production and consolidating or renewing factory buildings. In FY2013, initially at the Awazu Plant in Ishikawa Prefecture, Japan, we are going to start building a new factory with leading-edge energy-saving facilities, which will also enable us to achieve innovative production efficiency.

We will also enhance the level of sales, production and inventory management by taking full advantage of the Global HANSEI Operation Center, and expanding the range of the Inventory Zero program for distributors to promote an appropriate level of their inventories of products and parts. In addition, to secure personnel and other resources needed for investment in future growth, we will engage in personnel and organizational relocation and other activities designed to facilitate the establishment of the direct linkage of GEMBA between the Komatsu Group and customers.

Based on the belief that "its corporate value is the total sum of trust given to Komatsu by society and all its stakeholders," the Komatsu Group is further strengthening its corporate governance to ensure sound and transparent management, while improving management efficiency. Being committed to promoting thorough compliance, Komatsu will also ensure all employees share The KOMATSU Way. In addition to improving its business performance, Komatsu will facilitate both the development of corporate strength and the achievement of social responsibility in a well-balanced manner

(5) Note to the Going Concern Assumption

None

(6) Basis of Consolidated Financial Statements

1) Changes in important subsidiaries during the Year under Review: None

2) The number of consolidated subsidiaries and affiliated companies accounted for by the equity method

Number of consolidated subsidiaries: 146 companies

Number of companies accounted for by the equity method: 35 companies

3) Changes resulting from revisions in accounting standards, etc.

Komatsu adopted the Accounting Standards Update (ASU) 2011-05, Presentation of Comprehensive Income, starting in the twelve months period of FY2012, ended March 31, 2013. The Update requires an entity to report comprehensive income either in a single continuous financial statement (one-statement approach) or in two separate but consecutive statements (two-statement approach). Concerning ASU2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items out of Accumulated Other Comprehensive Income in ASU 2011-05, however, the effective date for amendments to the presentation of reclassification of items out of other comprehensive income has been deferred. ASU2011-05 being a disclosure regulation, such adoption did not have any impact on Komatsu's financial position and results of operations.

|--|---------------|--------|
| Net income attributable to Komatsu Ltd. per share: | | |
| Basic | 132.64 | 173.47 |
| Diluted | 132.51 | 173.32 |

3) Others

In the Consolidated Statements of Cash Flow, Komatsu disclosed its cash flow of short-term debt in financing activities on a net amount basis until the fiscal year ended March 31, 2012. From the fiscal year ended March 31, 2013, Komatsu discloses its cash flow on a net amount basis for the debts whose original maturities are three months or less. The Consolidated Statements of Cash Flow for fiscal year ended March 31, 2012 is also reclassified correspondingly.

This change does not have any impact on the total cash flow from financing activities.
